DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-4, 6 and 7 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Murakami et al., Tetrahedron Letters, Vol. 42, No. 40, pp. 7071-7074 (2001), cited by Applicants. The Murakami et al. reference discloses the catalytic asymmetric sulfimidation of methyl phenyl sulfide with an arylsulfonyl azide using (CO)Ru(II)(salen) as a catalyst. The reference further discloses the use of t-butoxycarbonyl azide instead of an arylsulfonyl azide. See Scheme 3 on page 7072. Thus, the claims are anticipated.

Allowable Subject Matter

4. Claims 5 and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
